Moodle Application

After successfully completing our journey with the Moodle website, it's time to explore the Moodle Application!

The Moodle app is a mobile application that allows you to access and interact with the Moodle learning management system on your smartphones or tablets. It extends the functionality of the Moodle LMS to mobile devices, making it more convenient for you to engage with the course participants and course materials on the go.

CONTINUE

Let's Start!

To help you maximize your Moodle App experience, we've included step-by-step instructions for navigating through its various features.

Login to Moodle Application

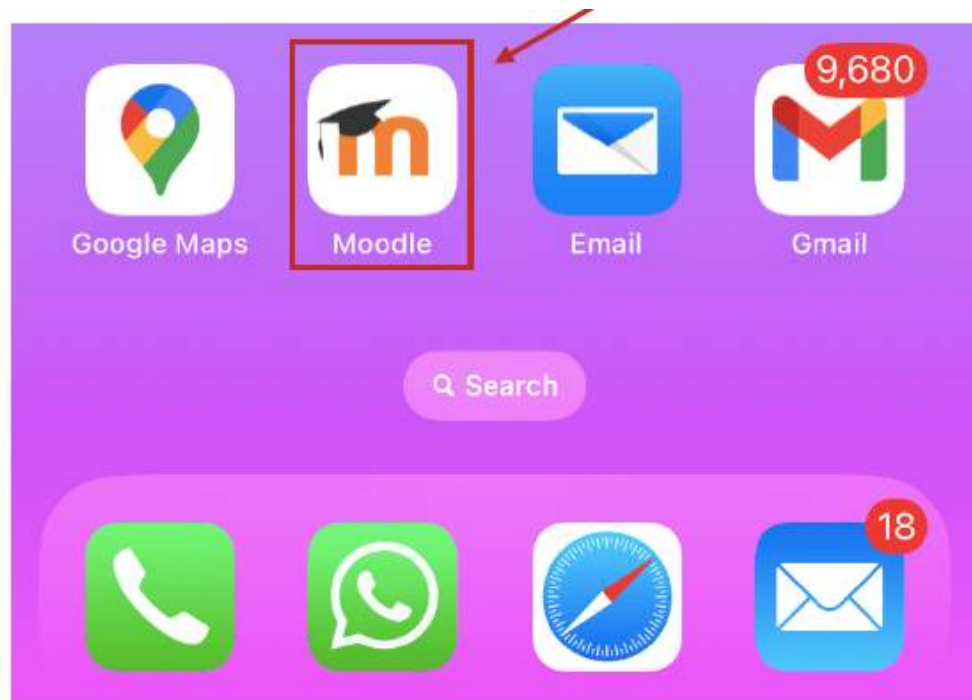

First you need to Login to your Moodle account using your credentials: username and password. To do so, follow the below three steps:

FIRST

SECOND

THIRD

Press on the Moodle application icon from you device.

FIRST

SECOND

THIRD

Enter "your site": <https://giz.vte.gov.lb/>

Your site

<https://campus.example.edu>

OR

 Scan QR code

Download e-Lessons to be Completed in Offline Mode

The first time your students enter the lesson it will be automatically downloaded. Then, they can work offline on the lesson. Their work will be synchronized as soon as they return online. There are two ways

to download the e-lessons:

First way

You need to press "Enter" and wait until the lesson is downloaded.

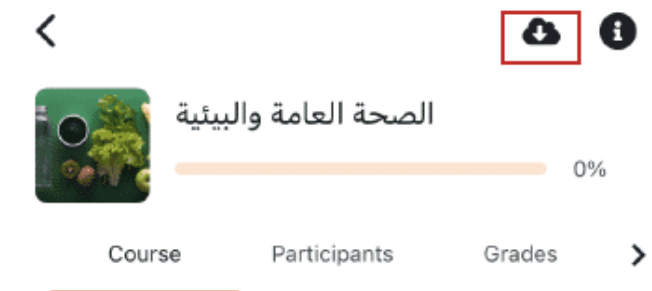

Second Way

Here is another way to download the whole course or specific lesson in the course. Follow the below two simple steps:

Step 1

Press on the "Cloud with arrow" icon.

Step 2

Press on "Download course" to download the whole course OR on the "Cloud with arrow" icon to download one specific lesson.

Download course content to work offline. Your activity will sync automatically when your device is back online.
